Project Design

Complete this activity below for **at least** three of the topics you identified in the Learn, Solve, Make, Do activity.

Step 1: Complete the chart below.

	Write down the general topic.	Add one or two specifics to the general topic area.	Turn the topic into a question and fine tune it. Questions should not be yes/no or able to be answered with one or two words.	Describe the final product you would have for a project that addresses this question.	Feedback from another person
Example:	Go for a hike	I want to hike at least 3 times a week while still practicing social distancing.	Where can I hike nearby and how can I document my hikes?	The final product will be a collection of photos and a guidebook of the things I see on my hikes. I will make my guidebook about the types of trees, insects, animals and flowers that can be found near my home.	Feedback from Person A: “I love the idea of keeping a guidebook with all of the natural objects you will see. How will you keep track of where you hike?”
#1	Learn to skateboard	I want to learn how to skateboard during my time off in places near	Where are places I can learn that I can also social distance?	My final product for this will be a video showing my progress including vlogs	“I think this is a good idea. You run the risk of getting hurt, but that’s part of

		<i>my house that I can easily access.</i>		<i>reflecting on what I did and how I think I did.</i>	<i>learning this."</i>
#2	<i>Learn another language</i>	<i>I want to learn another language in order to engage myself in learning activities while off of school.</i>	<i>What can I use to learn another language?</i>	<i>My final product will be a video showing what I've learned.</i>	<i>"What language would you learn? How would you put it into a video?"</i>
#3	<i>Take pictures and do more photography</i>	<i>I want to get outside during break and get more into photography and keep track of it.</i>	<i>What cameras will I use and where will I be taking pictures?</i>	<i>My final product will be a video that displays the pictures I took.</i>	<i>"I like the possibility of using different types of cameras."</i>

Step 2: Share your chart with at least one other person and get their feedback. Also give them feedback on their chart.

Step 3: Upload your completed Google Doc to your Launchpad Profile.
